

To be healthy we will...

- Practice our movement and rhythm skills in dance.
- Learn a whole-class dance linked to our topic.

As leaders of faith, we will...

- Reflecting on what the Kingdom of God means to us.
- Deepen our understanding of the journey of the Magi to Jesus.
- Examine the life of St. John Bosco.

As Scientists, we will...

- Observe how magnetic force is transmitted.
- Categorise magnetic and non-magnetic material.
- Examine how friction impacts movement.

As Writers, we will...

- Read a range of traditional tales and explore sentence structure and a variety of sentence openers.
- Examine Kenning poems and create our own about a creature of our choice.

As Mathematicians, we will...

- Be deepening our understanding of unit and non-unit fractions by recognising, comparing and ordering them.
- Learn how to use column addition and subtraction for three digit numbers, with regrouping and exchanging.

In DT, we will...

- Study a range of pop up cards and use our knowledge of levers and linkages to make our own.

As Geographers, we will...

- Investigate what we can use to find out more about the UK and our local area.
- Understand how land use varies across the UK.
- Identify human and physical features in the UK.

As Computer Scientists, we will...

- Examine how to edit images and text using desktop publishing programs.
- Evaluate the benefits/drawbacks of using images and text in digitally published documents.
