

Eco Committee News – May 2026

Welcome to our Spring newsletter. We have been holding regular meetings to work on our three topics: Biodiversity, Global Citizenship and Water. In school, we have been busy with our litter picking, topping up bird feeders and saving energy by turning off our lights and boards when we leave our classrooms.

During the Easter holidays, we asked the pupils of St Joseph's to actively get involved with The Great British Spring Clean and collect 1 bag of litter per family.

Please see the photos of some of the children who gave up their time to help keep our environment clean.

Remember, we have a local 'Litter Champion Hub' station in the bus shelter by our school where you can help to pick up litter in our area.

Gill from SDC has also arranged for us as a school to have our own litter pickers so we can take responsibility for our own litter around our school. She will be visiting us in Summer Term 2 to donate these and talk to the children about being champion litter pickers.

Upcoming Eco dates for your diary

5th June – World Environment Day (Awareness and action for our environments)

8th June – World Ocean Day (Awareness about oceans conservation and marine ecosystems)

Upcoming Events for Summer term 2

'Everyone feeds bees but almost no one gives them water.'

(please attach poster)

St Joseph's Eco Committee are going to make bee rafts to sell during the Year 6 fundraiser.

We are also busy organising our Summer sponsored challenge for WaterAid.
